<ul style="list-style-type: none"> positions - Laptop Specs: Intel Core I5 or better; Atleast 8gb ram; 14" display; 500GB Internal Storage - Portable Cameras: HD Resolution; atleast 110 degrees horizontal field of view; flexible gorilla pad for easy mounting; Automatic light detection filter; Rechargeable camera batteries for 6hrs continuous op 		
<p>2. 1 Lot Wireless and Tetherless Trauma Care Patient Simulator CAE Apollo – Patient Simulator Brand: CAE; Origin: USA Standard Equipment:</p> <ul style="list-style-type: none"> - Wireless Apollo and tetherless manikin available in medium and dark skin tines - Software compatible tablet; Available as CAE Apollo Prehospital and CAE Apollo Nursing - CAE Maestro physiologically driven OS; 4 simulated Clinical Experience (SCE's) - A. Anaphylaxis B. Heart failure with pulmonary edema C. Severe young asthmatic D. Subdural hematoma - One Maestro Stand Alone license' 'One physiology option; license for Maestro Standalone - Ultrasound scan records normal and pathologic cases including cardiax, abdominal, FAST and pleural surface scans; Simulated patient monitor software electronic user guide; CAE assurance value plan with customer and technical support. Training for life and option to review - Optional Equipment: Simulated Patient monitor device all-in-one PC/tablet, Additional battery pack - FX simulated wound kit – FX simulated limb injures – Hands free cable kit – Wall air kit - Manikin Tool kit - Optional Software: learning 	<p>Php 6,288,000.00</p>	<p>Six Million Two Hundred Eighty Eight Thousand Pesos Only</p>

<p>modules (more than 15 modules available)</p> <ul style="list-style-type: none"> - Manikin: 74" H x 26" W x 11" D (188cm x 66cm x 28cm) 100lbs (45.4kg) - Electrical: AC Input: AC 90-240VAC, 50/60Hz; Internal Batteries: 18.5V, 233 Wh lithium-ion rechargeable - Airway: <ul style="list-style-type: none"> - Bag-valve-mask ventilation - Head tilt/chin lift-Jaw thrust; - Tongue swelling; - Bronchial occluder - Surgical cricothyrotomy; - Needle cricothyrotomy - LMA and other supraglottic adjuncts - Articulation: <ul style="list-style-type: none"> - Articulating neck, shoulders, elbows, arm and hips - Breathing: <ul style="list-style-type: none"> - Bilateral and unilateral chest rise and fall – Spontaneous breathing - Bronchial Occlusion - Integrated SpO2 finger probe simulated patient monitor - IV/IO/IM - Bilateral IV placement sites in antecubital fossa and dorsum of hand - IM injection site; right deltoid;- Humeral IO site, left - Neurological <ul style="list-style-type: none"> - Blinking and reactive pupils with multiple settings; - Convulsions - Sounds <ul style="list-style-type: none"> - Pre-recorded sounds and speech, custom vocalization recorded by the user, via wireless microphone - Heart, bowel, and breath sounds (anterior and posterior) independently controlled - Audible breathing sounds (wheezing and gasping) - Trauma <ul style="list-style-type: none"> - Bleeding and fluid drainage linked to physiology; Two simultaneous bleeding/moulage sites with 1.5L blood tank capacity - Limbs can be removed at the knees and elbows to support amputations; - Automatic 		
--	--	--

<p>responses to 68 intravenous and inhaled medications</p> <ul style="list-style-type: none"> - Responses are dose dependent and follow appropriate time course - Urinary: Urinary catheterization; - Interchangeable male and female genitalia - Prehospital Configuration Additional Features: - Airway – Upper airway designed from CT scan data of real human patient; Intubation; orotracheal nasotracheal, retrograde, fiber optic;- Right mainstem intubation detection - Gastric distention with esophageal intubation; - Laryngospasm; - Airway Occluder - Posterior oropharynx occlusion - Breathing: Carbon dioxide exhalation; - Bilateral needle decompression - Secretions: Eye, nose and mouth - Nursing Configuration Additional Features - Airway: Airway reservoir supports suctioning of fluids via tracheostomy tube - IV: Subclavian venous catheter - IV: Subclavian venous catheter - Gastrointestinal: - Gastric reservoir supports simulated gastric lavage, gavage and gastric suction - Breath sounds over entire lungs - Bilateral chest tube insertion, sensed, with fluid output - Circulation: - Defibrillation and cardioversion using live defibrillators - Pacing (use of hands-free pads) - 12 lead dynamic ECG display - ECG Monitoring posts and interface with real ECG monitor - Bilateral blood pressure measurement by auscultation 		
--	--	--

<ul style="list-style-type: none"> - and palpation - Bilateral carotid, brachial, radial, femoral, popliteal, posterior tibia, dorsalis pedis pulses - CPR: - Compliant with 2020 AHA PLS guidelines - Adequate chest compressions result in simulated circulation, cardiac output, central and peripheral blood pressures, carbon dioxide return - Hand-placement detection - Gastrointestinal - Nasogastric tube placement - Bowel sounds, all 4 quadrants 		
TOTAL CONTRACT PRICE	Php. 10,668,000.00	Ten Million Six Hundred Sixty-Eight Thousand Pesos Only

You are hereby required to provide, within ten (10) days from receipt hereof, the Performance Security/ Performance Bond equivalent to the following;
