

SIMULTANEOUS RESEARCH SHOWCASE: WMSU CELEBRATES INNOVATION AT UNIVERSITY-WIDE FORUM

The Western Mindanao State University (WMSU) through the Center for Research Utilization, Publication and Information Dissemination (RUPID) successfully hosted its annual University-wide Research Dissemination Forum (URDF) on September 20, 2023. The forum served as a significant platform for researchers from a multitude of disciplines to convene, share their groundbreaking endeavors, and cultivate a vibrant exchange of ideas.

Themed "Resurgence of Discovery: Celebrating Multidisciplinary Research Innovations in the Post-Pandemic Era," the URDF underscored WMSU's unwavering commitment to advancing knowledge and addressing the multifaceted challenges of the contemporary world. Throughout the forum, researchers had the opportunity to present their work across various designated sessions. Each session culminated in stimulating panel discussions, fostering insightful dialogue amongst experts and generating valuable feedback that paves the way for future collaborative efforts.

The forum further distinguished itself by celebrating the remarkable achievements of young researchers. A dedicated session specifically showcased the work of undergraduate and graduate students, acknowledging their talent and invaluable contributions to the ever-evolving research landscape.

The URDF culminated in a closing ceremony that powerfully emphasized the pivotal role of research in shaping a brighter future. The event's resounding success was evident in the enthusiastic participation of the researchers and collaborative spirit that permeated the entire forum.
